AI Music Prompt Pack

60 Plug-and-Play Prompts for AI Songwriting & Music Tools

Read this first

This pack works with any AI text or music tool (Suno, Udio, ChatGPT, Claude, and similar). Each prompt is a fill-in-the-blank template. Replace the **[brackets]** with your own details.

The formula for a great music prompt

> **Genre + Mood + Tempo + Instruments + Vocal style + Story/Theme**

The more specific you are, the less generic the output.

Important: Always read your platform's terms for commercial use and check what rights you hold over AI-generated audio. Write your own lyrics and melody when you want to own the work outright.
